# THE WARMTH WITHOUT THE WEIGHT

## FOYLE 5-TT

Our new 5-TT fabric technology manages your body's temperature, forming a barrier between you and the elements. The lining is positioned to the front and rear of this slim line snood top, ensuring freedom of movement, providing a lightweight warmth, maximizing comfort and fit of the garment. The wind proof exterior battles the elements with a meshed lined interior to store your body heat.

Personalise this garment for your club players by adding professional print or embroidery. Embroider the garment with club crest, sponsors or players initials.
